Contribution Log – Sprint 3 (Oct 12 – Nov 2)

Name: Ali Ossama El Khaled

Week 1 (Oct 12 – Oct 20)

- **Oct 12 (1 h):** Added missing story points for tasks under **Milestone 3** and reviewed items for accuracy.
- **Oct 14 (1.5 h):** Updated **Milestone 4** tasks with story points, labels, and assignees to prepare for upcoming sprint work.
- **Oct 15 (2 h):** Worked on writing **Meeting Minutes for Sprint 3**, summarizing team decisions, blockers, and next actions.
- **Oct 17 (2.5 h):** Started implementing the **administrator backend**, including:
  - Admin authentication & validation
  - Organizer management (view, approve, reject)
  - Event management endpoints
  - User status updates
- **Oct 18 (1 h):** Attended weekly team meeting and discussed backend–frontend alignment with team members.
- **Oct 20 (1 h):** Cleaned up API structure and reorganized admin routes for better clarity.

Week 2 (Oct 21 – Nov 2)

- **Oct 22 (2 h):** Continued working on the administrator backend — completed all sections except **analytics**, including error handling and improved request validation.
- **Oct 24 (1 h):** Discussion with the TA about backend structure and endpoint clarity, and revised parts based on feedback.
- **Oct 26 (2.5 h):** Fully tested admin backend with dummy data and prepared it for integration with frontend.
- **Oct 28 (2 h):** Started connecting the **administrator backend** to the frontend pages; fixed routes and verified responses.
- **Oct 30 (1.5 h):** Completed backend–frontend integration for admin features (login, approvals, event updates, user management).
- **Nov 1 (1 h):** Attended team meeting and reviewed the remaining tasks for Sprint 4.
- **Nov 2 (1.5 h):** Final review of backend code, cleaned files, reorganized folders, and documented API behavior for teammates.

Total Estimated Time

Approx. 25 hours
